

Providing leadership growth and development opportunities through hosting conferences, workshops, classes, speakers, mentoring, networking, and group forums.

WHO?

We are a group of Christians devoted to transformational change in our urban communities, through leadership training, mentoring, and our social network. (Youth With A Future a division of Transformational Leadership Forum)

WHAT?

Challenge and instill Youth Leadership core values through workshops, mentoring, and social, and social networking to support integrity community, family values, and passion for themselves and others, multiplication of leaders, stewardship of your talent, treasure, and time. We use innovative technology: iPad, iBook, Blogtalk Radio, and Mobile App.

WHEN?

Hosting of workshops, in school, churches, and Christian youth groups and civic organizations.

WHY?

In today's urban communities there is a need to train strong, effective and respected leaders to bring about transformational change. We want to be integral in the developing process of youth leadership in the urban community by introducing character values for youth.

HOW?

Workshops, Mentoring, Community Partnerships, and Leadership Events and Social Media. Our workshops use innovative learning through use of iPad technology, our iBook, and YWF app. Therefore our curriculum and creative activities will continue to be evaluated and reshaped to produce a viable education Leadership program that will make in difference in the lives of young people. Through evaluation of student's progress and involvement in enrichment activities we can determine the impact or their interests and lives.

OUR STORY

DR. Robert Fomer founded Transformational Leadership Forum (TLF) in May 2011, with the purpose of providing leadership training and development to those who desired to work, or were already working in schools, churches, and community organizations in low income urban areas. While working in these urban communities TLF saw an opportunity to begin this leadership training at an earlier age. Youth With a Future (YWAF), our youth program, was started spring of 2013. Its focus was and remains to increase the capacity for leadership among underserved young people using eight core values.
